

CAMPING GUIDE

Camping is one of the best things about our race weekends. If you ask any student athlete, coach, or parent what they love most about our events, many will tell you camping at our amazing venues is the highlight of their race season. **We're proud to offer onsite and near-onsite camping at each of our races so everyone can be close to the action.** Camping areas are generally primitive (no hookups, limited water, uneven natural surfaces, limited cell service, dirt roads, portapotties), so come prepared to be self-sufficient at each event.

Camping at our races is on a first come-first served basis. While we do our best to accommodate everyone, there is no guarantee that all attendees will fit into the onsite designated camping area. Once onsite camping is full, it's your responsibility to find an alternate location.

While we understand teams want to camp together, saving camp spots is not permitted at any of our races! Please do not park extra vehicles or block entry to open camping spaces around you. As we indicated above, camping is on a first come, first served basis! If necessary, access times to camping will be communicated in advance and after hours access will not be allowed.

As our league continues to grow, our race weekends keep getting bigger and bigger. Our races will draw anywhere from 400-1,000 student athletes. If you combine the number of student athletes, their families who come to support them, coaches, volunteers, and league staff, it's not uncommon to have several thousand people camping together on race weekends. **Like any event that draws a large crowd, we have limitations, guidelines, and rules in place to ensure everyone has fun and stays safe.**

Each one of our race venues is unique, so there are often different limitations, guidelines, and rules for each one. **To ensure you are well prepared for each race, we recommend you take the time to read through this entire document to see what applies to the races you and your team will be attending.**
